Congrats guys - getting recognized all the way to the top!

(I was trying REALLY HARD to not login while on Thanksgiving break - went out to dinner w/ Tom Liebsch and his lovely wife Colleen last night and he told me about this email from Ginny...said I should login and check it out :)

Regards,

Perry D. Schmidt

A great day for team Ibm - 4+ years of very hard work - a perfect example of what we are capable of doing. Thanks to so many who worked their guts out on this project.

Tom, John, Bob, Arvind,

Some good news!

Attached is a thank you note I just sent to the IBM team.

We just received the acceptance letter from the ORNL team for the Summit system. This completes our CORAL compute and file system deliveries and acceptance at both LLNL and ORNL.

I can't say enough good things about the entire IBM team that came together, across all parts of the organization, worked with a focused intensity, and made this happen.

Our colleagues in the Federal team are ensuring that this final acceptance turns into IBM revenue in very short order.

As expected, we have some remediation items to close with the labs, which we'll focus on completing in 4Q. We'll not take our eye off the ball.

Fw: Coral!

Regards,
Wayne
